

## **S-Series Skimmers** ***THE PREMIER LINE***

### **I. Product Description**

Empowered by a daring mindset, ESHOPPS has pioneered a new standard that will transcend convenience, performance, and elegance in the skimmer industry. Introducing The PREMIER LINE of S-Series Skimmers: a result of game-changing improvements, adaptation of simplicity, and contemporary design. The core of The PREMIER LINE is the ESHOPPS INTELLIGENT DESIGN (EID) Technology and it features 5 advancements specific to our proprietary skimmer designs. At the heart is an innovative bubble plate called EDDY™. The EDDY™ Bubble Plate is a groundbreaking design, incorporating blades that allow for increased contact time with finer bubbles. The EDDY™ Bubble Plate has an easy twist release mechanism for convenience of assembly or disassembly. Additional key EID components include: Twist-Off Base, Quick Release Pump Lock, Transparent Venturi, and a Large Capacity Collection Cup. The new PREMIER LINE of S-Series Skimmers simply packs complex engineering into an elegant design.

### **II. EID (Eshopps Intelligent Design) Technology**

#### **a. EDDY™ Bubble Plate**

- i. Groundbreaking design to incorporate blades that will allow for bubble to rotate and tweak the duration of contact time
- ii. Precise engineering of brand new bubble plate design to increase contact time for optimal skimming
  - a. **Increased contact time w/ easy twist release**

#### **b. Twist-Off Base**

- i. Less than 3 seconds to twist open the body for easy access
- ii. Much more convenient compared to the traditional body skimmer that utilizes screws to lock the body in place
- iii. Traditional skimmer with screws may sometime turn rusty and makes it difficult to turn

#### **c. Quick Release Pump Lock**

- i. Quick release of pump by loosening the screw to slide the pump locks out to remove the pump or to install the pump

#### **d. Transparent Venturi**

- i. See any visible calcium build up and allow for easier maintenance

#### **e. Large Capacity Collection Cup**

- i. Holds more skimmate
- ii. Don't need to empty it out so often
